

Role of a FixOurFood Commission Affiliate

This is not a strategic role and attendance at regular meetings will not be required.

Affiliated organisations (or individuals) will:

1. Promote the FixOurFood Commission's work and activity to their own wider network
2. Share information and good practice/case studies with the Commission
3. Provide specialist knowledge: written/verbal/virtual or at a FixOurFood Commission meeting if invited to attend as a guest
4. Join task and finish groups to support a particular area of work for a specific period of time
5. Attend/support/promote FixOurFood Commission events
6. Consent to the FixOurFood Commission using your/your organisation's name in promotional material, documentation and social media where appropriate

By aiming for as many Affiliates as we possibly can, this will enable:

- Wide reach across diverse sectors
- Increase profile and credibility
- Provide lots of information/help map activity across the region
- Enable the Commission to facilitate greater connectivity amongst communities/activists
- The greater the number of supporters, the more likely the Commission will be able to influence decision makers
